

December
State Revolving Fund (SRF)

No loans were closed or projects advertised for construction during December. A binding letter of commitment was issued to the City of Petersburg for a \$3,877,500 loan.

Staff provided a report to the EPA on hurdles to closing loans in West Virginia and ways to increase the DWSRF utilization rate (loan closings) in the future. Staff also continued working with loan recipients and potential recipients on projects for advertisements of bids, construction, and commitment of funds.
